The image displays the EZCastPro interface on a television screen. At the top left, the logo reads "EZCastPro Smart Casting!". To its right, the SSID is "EZCastPro\_AE66385E" and the PSK is "39257445". In the top right corner, there are icons for a smartphone and a router, both with a red 'X' over them, indicating a connection failure. Below the status bar, there are two main sections. The left section features a search bar with "EZCastPro", a QR code, and a search bar with "www.iezvu.com". The right section shows two diagrams illustrating the connection process. The top diagram shows a laptop and a smartphone connected to a wireless network, which is then connected to a wireless router. The bottom diagram shows a similar setup but with a different network configuration. At the bottom of the screen, there is a note: "★ 請勿使用電視機的USB接口供電,以免出現電力不足的異常。" (Do not use the TV's USB port for power to avoid abnormal power shortage.) The version number "ver.16354000" is visible in the bottom left corner.
