Introduction

EVASing Vintage

Embrace Nature X Fabric Portable Speaker

A bluetooth speaker with a handle and a linen fabric body, built by a professional tuner. The deep bass is strong and surging; the midrange is full, the magnetism is rich; the treble is bright and crisp. The overall sound quality is full of layers, the distance and the height are clear, and it is comfortable and durable. Whether it is carried out or indoors, it looks elegant and textured.

It is also a luxury to listen to music when you are busy at work. Comfortable and pleasant music has the benefits of relieving stress, anti-aging, improving sleep quality, improving work efficiency, and relieving pain. Music is the regulator of our life and mood, as well as the other side of our soul and the home of our spirit.

Battery life	About 10-15 hours (2000mAh)
Size	200*58*130mm
Weight	About 480g

FAQ

Q. Can't connect or pair speakers via bluetooth

Please check if the device Bluetooth is turned on. If it is confirmed to be turned on, the audio may be connected to other devices, please disconnect the previously connected device first.

Q. Bluetooth connection interrupted

Please check if the speaker is too far from the device or is affected by obstacles. Surrounding strong electric fields, such as microwave ovens, wireless routers and other devices using the same frequency range may also cause interference. Please try to move the device closer, within 10m, and not obstructed by obstacles such as walls or doors.

Q. Popping sound during playback

The power amplifier has signal brilliance phenomenon due to exceeding the output power, please try lowering the volume.
